Grove City Lumberyard Project  
Parking Garage

May 22, 2009

This parking garage will serve retail, office, educational uses and City Hall as part of the "Lumberyard" Project and the downtown & Broadway businesses. The garage is an open air garage and free span, without columns between parking spaces.

The proposed façade treatment will integrate the garage in scale and character to the contiguous neighborhoods. Residential scale façade elements, separated by open screens that will be "ivy covered" will present an attractive appearance and not have a "parking garage" commercial character.

Access will be to Grove City Road and Park Street to disperse the traffic and make the garage convenient to users.
